Michigan Geographic Alliance is introducing and sharing new resources, lessons and activities which integrate geography concepts into history lessons.

**The World GeoHistogram** helps students see major events in time and space. Teachers will receive a GeoHistogram Poster, a set of placemat GeoHistograms, and a CD with activities and lesson plans.

**Teaching Geography CD-ROM** is an interactive CD containing ready-to-present lessons from all major world regions, including photographs, maps, and content background.

This is an outstanding opportunity to work with experts in integrating geography into World History, learn from colleagues teaching the same content and receive great support materials.
